ABOUT ME

My passion for tech started in the 1990s, when I learned visual basic. Although I have worked in other industries since then, this passion has always been with me. As a highly self-motivated individual, I decided to return to where my true passion is with valuable skills and experiences acquired along the way.

SKILLS

TECH

JavaScript, TypeScript, React, Redux, Express, Node.js, Knex, Sqlite3, Git, JEST. Acquired and practiced during the courses of Dev Academy.

PROBLEM SOLVING

As a student at Dev Academy and in my previous role as Accounting Manager, I consistently faced unforeseen challenges and took pleasure in successfully resolving them

TEAM WORK

Developed skills while working within a team and with various people during my time at Dev Academy and also in my previous role as Accounting Manager. Quickly adapt to a team environment and contribute a can-do attitude to achieve a team goal.

QUICK LEARNER

Came to NZ in 2005 and finished my BA 4 years later. For tech, Starting from zero to Full Stack Developer in 17 weeks of boot camp. Those achievements will explain the skill.

TIME MANAGEMENT

In my previous role as Accounting Manager, I successfully managed to prepare for tax, financial information for annual report with tight deadlines. I also managed to complete various weekly challenges and projects during the course at Dev Academy.
